

Different Stars - Mike Shahan

The world around me is dark and bright.
I dream of the void above my head.
The stars shine with a brilliant light.

My mind always floats to such great heights,
Leaving behind a world in dread.
The world around me is dark and bright.

The sky is filled with incredible sights.
I've been where monsters and angels tread.
The stars shine with a brilliant light.

A shining dragon battles a greedy knight.
The goddess smiles from her silver sled.
The world around me is dark and bright.

I dream of the future, but not with fright;
There I live, and thrive, and my doubts, I shed.
The stars shine with a brilliant light.

I spread my wings and through space, take flight.
Through galaxies and memories I am led.
The world around me is dark and bright.
The stars shine with a brilliant light.
